

i-Tek GT-100-RF

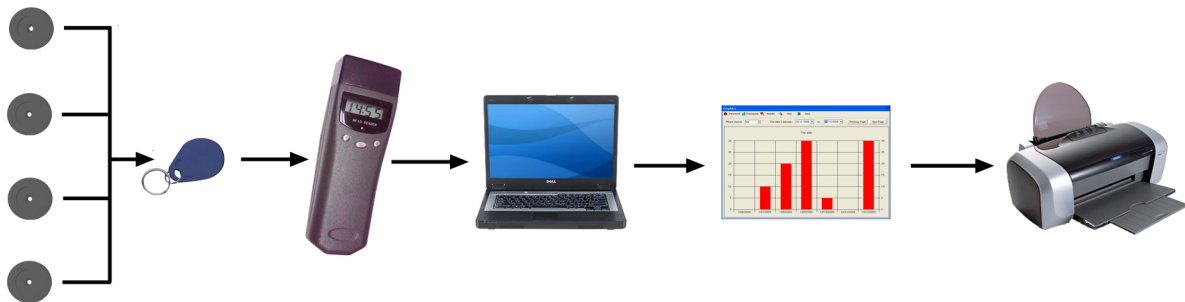

RFID Guard Tour System

The modern way to track your security guard's rounds

Ever had problems with guards not doing their rounds? Even if they did, are you sure they are properly making their rounds as you wanted? Well fear no more, for the GT-100 Guard Tour system now allows you to know your guards better! Using the latest RFID technology, the GT-100-RF Guard Tour system is able to accurately record every point of arrival, down to the second. With this system, you can now rest assured your guards will not be sleeping on the job!

Specifications:

| | |
|-----------------------|---|
| Memory | : America Original FLASH |
| Storage capacity | : 10,000 records |
| Read Cycle | : 700,000 times |
| Standby energy usage | : 0.06mA |
| Battery life | : Two years (Depends on usage) |
| Reading distance | : 2 to 5 cm |
| Frequency | : EM125kHz |
| PC connection | : USB |
| Battery type | : CR123A, 3.6V lithium battery |
| Material | : Durable & high quality alloy metal case |
| Operating temperature | : -20°C to +70°C |
| Operating humidity | : 0°C to 95°C |
| Dimensions | : 147mm x 40mm x 20mm |
| Weight | : 200g |

Accessories

No Recharging Needed

One less maintenance, one less headache.

Shock Resistant

High quality alloy metal finishing increases durability and hardness.

Long Lasting Batteries

Lasts up to an average of 2 years (depends on usage frequency)

Massive Reading Cycles

Up to 700,000 read cycles.
